Windows 8.1 Pro Preview (Build 9431) in VMware Workstation Pro! 160 views · January 7, 2022 · Remake of KD. In this article, we'll show you how to run Windows 8.1 Pro Preview (Build 9431) on a VMware Workstation Pro virtual machine. To view your Windows version, launch the VMware Tools application. After launching the application, in the menu on the left, select the System Information item, then on the right side of the application window, select the About item. This window displays information about the computer and the version of the operating system installed on it. In our case, Windows version 8.1.
