This is a very basic keyboard macro that allows you to add the text "EIOffice " in a text field and then a space and then when you press Enter key it will add a comma and then a space and then add the text "Office" and then another space. This macro is extremely simple to use and very basic but it will allow you to connect your EIOffice application with other applications that allows you to insert "EIOffice " or "Office" in the text field. - Macro Test (Add "EIOffice" in a text field and then a space and then when you press Enter key it will add a comma and then a space and then add the text "Office" and then another space. This macro is extremely simple to use and very basic but it will allow you to connect your EIOffice application with other applications that allows you to insert "EIOffice " or "Office" in the text field.) I am trying to follow the instructions in I am building the EIOffice, it works as I would expect except the Macros. When I try to install the JAR for the Macro Editor, I get the following error: Installing C:\Users\joe\Desktop\EIOffice\MacroManager.jar ERROR: Could not find or load main class com.eionsoftware.macro.Editor.Install ERROR: Could not find or load main class com.eionsoftware.macro.Editor.MacroManager Exception in thread "main" java.lang.NoClassDefFoundError: When I try to install the JAR for the Macro Editor, I get the following error: Installing C:\Users\joe\Desktop\EIOffice\MacroManager.jar ERROR: Could not find or load main class com.eionsoftware.macro.Editor.Install ERROR: Could not find or load main class com.eionsoftware.macro.Editor.MacroManager Exception in thread "main" java.lang.NoClassDefFoundError: com/eionsoftware/macro/Editor/MacroManager at java.lang.Class.getDeclaredMethods0(Native Method) at java.lang.Class.privateGetDeclaredMethods(Class.java:2442) at java.lang.Class.getMethod0(Class.java:2685) at java.lang.Class.getMethod(Class.java:1620) at sun.launcher.LauncherHelper.getMainMethod(LauncherHelper.java:494) at sun 77a5ca64e
