Discover better gaming performance than integrated graphics, making your gaming the process is richer and smoother. You can even get the latest drivers and optimize your game. Just make sure you have a new processor and the latest graphics hardware. (Alternatively, a graphics card might be a good option if you don't have a processor that supports hardware virtualization.) For newer Intel processors and NVIDIA SLI-based graphics cards, this might be the easiest way to get the most out of the processor. Otherwise, you can do the following: â–¸ Make sure you
