## Training Games Presentation Companion Free Download

Chock full of tutorial tutorials, games and tips, this PowerPoint add-in helps professionals present their messages in an interactive, engaging and professional manner. ✓Insert slides and quizzes from PowerPoint, MS Word and more into training or sales presentations ✓Game slides that create hands-on training and quizzes ✓Create slides and games for conducting training, quizzes, customer training and more ✓Windows or Mac compatible ✓Unlimited downloads ✓No watermarks ✓Easy add-in installation ✓Professional Slide Flow user interface ✓Help files and sample files included ✓24/7 support ✓Unlimited question & answer PowerPoint: Use PowerPoint to quickly edit presentation slides If you need to quickly edit your presentation slides, there are a few PowerPoint add-ins you may want to check out. Your presentation cannot fully reach its potential if you find yourself using a ton of time to edit slides. A PowerPoint add-in can streamline the whole process by making it easy to insert text, images and even video clips. ✎Create or edit text slides PowerPoint add-in's set of tools may be used to organize data and create different types of slides. If you wish to create a text slide, you may use the Insert Text button, which allows you to insert text in a PowerPoint slide. You may also easily insert the text you wish to type in a PowerPoint text box, when you click the button that says Insert at the top. ✎Insert images Pictures and images can be used to introduce a PowerPoint slide. You may easily insert pictures into your PowerPoint project by dragging and dropping the image file onto the slide. If you wish, you may create a slide where the picture will appear in a button or a slide. You may, for example, add a button, which allows users to click to play a game. ✎Create presentation templates PowerPoint add-in's templates make it possible to create different slide designs. PowerPoint templates typically have all the necessary graphics, backgrounds, frames and text, which may be used for any slide. When you insert a template, PowerPoint will automatically adjust the formatting of the slide you wish to create. You may as well insert the template, change the text, graphics and background, and then export the slide as a PowerPoint file. PowerPoint add-in's tools are available in many PowerPoint programs. Only one can be installed

### What's New In?

Training Games Presentation Companion is a simple to use Microsoft PowerPoint add-in that enables you to insert already configured slides into your presentation. The add-in is capable of reading other presentations, extract the slides you wish, then insert them into the currently opened project. Presentations made interactive The purpose of Training Games Presentation Companion is to help you create an interesting, interactive presentation, which can keep the audience active. The software allows you to insert a series of pre-made slides into the currently opened project. All you need to do is open a presentation in PowerPoint, access the Training Games Presentation Companion menu, from the command ribbon, then select the slides you wish to add. You may easily pick slides from other presentations or even choose from amongst the slides offered by the PowerPoint add-in. You may thus insert already configured slides that feature quizzes, games or puzzles. This way, you can enliven your presentation and keep the audience's interest alive. Maintain formatting and layout The main benefit that Training Games Presentation Companion brings is the fact that it can incorporate the new slide into the current presentation without altering its layout. Slides that contain games, quizzes, multiple choice questions, can be formatted in a certain manner and may contain macros, as well. The add-in makes sure all the attributes of the imported slides are maintained. The Training Games Presentation Companion window allows you to easily select the source presentation, from the work directory. The presentation is displayed as a list of slides, which may easily be opened in the preview area. You may take a peek at the contents of the slide, slide notes, if available and the help tab. You may choose to keep the source formatting, as well as to import it as a standard image (4:3 ratio) or widescreen (16:9) picture. Reliable PowerPoint add-in Training Games Presentation Companion allows you to easily import batches of slides from other presentations into the currently opened project. The main advantage of this process is that the aspect and all the slides attributes are maintained, which is particularly helpful in the case of interactive slides. 3. Social Games Social Games Presentation Companion Description: Social Games Presentation Companion allows you to insert already configured slides into your presentation. The add-in is capable of reading other presentations, extract the slides you wish, then insert them into the currently opened project. Presentations made interactive The purpose of Social Games Presentation Companion
