Autodesk also created AutoCAD LT, a simplified version of AutoCAD that runs on inexpensive desktop PCs, tablets and smartphones. A modern version of AutoCAD is available for Microsoft Windows, macOS, and mobile devices. The first version of AutoCAD was a 32-bit application (32-bit only Windows, OS X and iOS). By 1995, it was the most widely used CAD application in the country. By 2008, Vietnamese AutoCAD users numbered more than 100,000, more than the number of Microsoft Office users. The company that publishes this report, LeVision, surveyed 500 Vietnamese users in 2014 to

determine which CAD software they used, and how they liked it. This report examines AutoCAD (Acevskyy and Ho). AutoCAD comes with a "B"+ certificate. .
