Phased edits AutoCAD allows work in a drawing to be interrupted and stored, or "phased", to be worked on later. If the original drawing is updated between the phased and finished, CAD events are triggered, with the corresponding change being applied. For instance, a drawing that contains a room drawing can be transitioned to showing only a room, and the room editing can be complete before the room editing is resumed, and the room editing restarted. Formatting In AutoCAD, fonts, fonts and fonts, colors, coordinates, settings, and layers are all components that are specified as part of a drawing. The actual data is stored in a drawing file in the.DWG file format, a binary file format that uses the zip archive container system. Autodesk AutoCAD software offers the following font categories: Traditional lettering, such as Wingdings or Times Roman. Emoji or Unicode characters. Simple graphics such as logos or business cards. Drawings and annotations in PDF format. Word-processing and web design fonts. AutoCAD supports five font types: TrueType fonts. OpenType fonts. TrueType symbols and private use areas (PUA). PostScript fonts. Portable Document Format (PDF) fonts. AutoCAD supports English, French, Spanish, German, Japanese, Simplified Chinese, Korean, Dutch, Russian, Italian, Greek, Hungarian, Czech, Polish, Brazilian Portuguese, Hungarian, Romanian, Thai, Indonesian, Hindi, Polish, Serbian, Albanian, Persian, Arabic, Norwegian, Dutch, Swedish,
