## 4k Facebook Downloader Download

With the help of 4k Facebook Downloader you can seamlessly fetch videos from your Facebook account to save them to the local drive or any portable devices, such as iPad or iPhone. This software application sports some basic and intuitive options that you can rapidly figure out. Pay attention to the installer Before proceeding any further, you should know that the setup pack comes bundled with third-party utilities that it doesn't really require to function normally. These offers can be declined to make a clean installation, though. Simple interface and options The GUI is user-friendly, represented by a regular window with a plain and simple structure, where all you have to do is paste a URL to a Facebook video, point out the preferred saving directory on the disk, and ask the app to take care of the rest. Batch downloading is supported, which means that you can indicate multiple Facebook vids to get them at the same time. It is possible to preview the clip in a built-in player, copy the URL to the Clipboard, find out the time length of the movie, pause and later resume all tasks, remove an entry from the list or clear the entire queue, as well as to share a video on Facebook or Twitter. Evaluation and conclusion No error messages were shown in our tests, and the software application didn't hang or crash. It downloaded clips in reasonable time while remaining light on system resources, using low CPU and RAM, so it didn't hamper Windows performance.
