The game features realistic fire scenarios with realistic and damaging fire effects, with smoke particles and fire gases such as CO2 or HMX. Smoke and radioactive substances can be found in the city, in power plants and industrial parks. Actual firefighting equipment is used throughout the whole game. To create an even more realistic atmosphere, trucks and staff are driven realistically and damage to the vehicles occurs when in motion. Enjoy Latin, but actually not in the same way as other students of this subject do? That's cool! In this game you don't have to memorize all the words in the Latin-Dictionary. Instead, you can play a "Remeniscence-Game" to get back in the days of your school days and get a little flashback everytime you need a quick game! Let's play to remember the best days of our school days! Submitted to the Oculus Game Jam 2012! Reminisce Back to School Reminisce Back to School is a new VR experience for Oculus Rift. It's a School-Day Game where you can relive your days in school with a unique and funny story-line. Do you remember when you went to school and had to sit through hours of boring lectures and similar to this? Maybe we can ask you to relive these memories with us in Reminisce Back to School. Reminisce Back to School is the first of its kind game, made with the objective to bring the students, that want to learn Latin, back to their school days (without being forced, of course). Story: The school day just started. The second semester starts now. Can you remember the first and second school semester? When you were still in school, you were very enthusiastic about this subject. You were thinking about your future, of course. Now, everything looks different. Your teacher asked you to do something totally unrelated to what you had planned in the beginning. She told you to go to the teacher's office and you're to come back after 20 minutes. After 2 hours, you realized that the day was a big fail. You had to sit in the same boring classes from the first school semester. While you're coming back, you had the idea that you should ask your teacher to make the lessons more interesting. This game is all about the classic situation that you will face in school: The teacher asks you to do something different from what you had planned. Reminisce Back to School, is about answering and talking to your teacher about the uselessness of the lesson. In every dialogue, you can choose from 4 different endings by answering from a list of different questions. Gameplay: The gameplay is very simple, but you still have to pay attention to all the dialogues! You will go to the office and you will have to answer some c9d1549cdd
