The immune responses of splenectomized (SPX) mice were compared with those of sham-operated (SP) mice after infection with lymphocytic choriomeningitis virus (LCMV). Titers of infectious virus in blood, brain, and spinal cord tissues were measured on day 1 to 8 postinfection. In the spleen cell cultures of SPX mice, low levels of interferon (IFN)-gamma were produced in response to peptide Ag of LCMV glycoprotein. However, macrophages from SPX mice were capable of proliferating to significantly higher levels in response to the same Ag. Titers of virus in blood were not significantly different between the two groups. However, virus in the brain and spinal cord was significantly higher in SPX than in SP mice. Levels of IFN-gamma in the spleen cell cultures from both SPX and SP mice were not elevated following in vitro stimulation with unrelated Ags. These results demonstrate that SPX mice had a decreased capacity to mount an IFN-gamma response to c9d1549cdd

The band has been around a bit longer than some of the other bands featured in this review. Arson City started in New Jersey in 1995 and recorded their first record, "Age of Anxiety", six years later in 2001. Indeed, they're one of the longest standing acts on the heavy metal superstar fest. "Seconds To Minutes" is yet another enjoyable album from Arson City. The band uses a much lighter sound than their previous album, but has a tightness to it that keeps it fresh. Add in the quartet's vocals and you've got a winning combo. 01. Our Time Is Up 02.
