What is Dinobot?

Want a delicious sandwich or just settling for a sub? You must choose your Dinobot wisely! Choose which of the Dinobots your fellow Autobots want at arm's length! Can your Dinobot block a sniper attack? Shake sand in the eyes of your enemies? Survive endless hits and giant spears?

About the game

Hold your device where you can see it. Launch this awesome game!

Match three or more tiles to destroy them. Avoid the obstacles and be careful!

Avoid deactivating the red units and reviving red tiles before you reach the end of the level. Don't get tricked.

More about the Game

Dinobot and Tiara are a long, long, long, long, long way from home and now they must fight their way through the four prequel levels in order to reach a confrontation with Megatron! But first, they must survive an epic dinosaur-eating-sized ice age!

In order to defend themselves, the Autobots upgrade their outdated Dinobots with cool parts, but it comes with sacrifices!

The higher the ice age rises, the more Megatron's hordes of dangerous mercenaries get stronger!

And there are also upgrades!

How to get on Android

1. Pick your own Dinobots!

Each Dinobot has it own special powers and levels. Here's a list of the available options:

Jetborne Racing is an online air racing game from the creator of VTOL VR, bringing two decade's worth of racing technology to the PC platform. Pilot a high-performance jet aircraft through a variety of circuits while racing to the finish line and beating your friends. The game is a real-time, first-person, virtual reality game that gives players unprecedented control over their aircraft. Life-like aerodynamics and physics are simulated, so fundamental racing concepts like braking points and apexes apply. In fact, using controller input, players can even steer their aircraft left or right! 1. On the PC you need Steam installed to play 2. You need to install Steam on your computer. 3. Navigate to Jetborne Racing and click on 'Install Game' 4. Select 'Play Game' 5. Wait for Steam to download the game and install it 6. Launch Jetborne Racing and find the onscreen instructions 7. [12/13] The game starts with choosing a character, then head to the... a very nice game that we would recommend to anyone. Mimizo Very interesting game. It really is good for a beginning level (or "late") game. It is a game to learn how to create and manage good levels with the two papercraft engines.Zanabelle Excellent starting project! Its excellent in design, gameplay, mechanics,... I play it all the time when looking for a simple game that can be quick, fun and fantastic, big dragon Might be the best game I ever played. underlord123 i took about 30 mins to get into it, but its great. maybe i would play it a little more and its still a great game. overall great game. developers: If you ever find the time to invent a game that is a bit more than a "just another erastria/jigsaw" type game, it's worth remembering your name. Otherwise, this almost flawless piece of work will take all the attention away from you. —Douglas Johnson Ascetic Editor When this happened on a magazine page earlier this year, I was very surprised by the reaction. I expected it to be the hottest new game coming out of nowhere and self-fulfilled by the end of the month. Instead, this caused some hasty editorialising as to whether or not the game existed and, if it did, whether it was good or not. —John Newell Sphodrai This is my favorite game right now. —Heather Settle, New Games Weekly Neksewatari It's just so damn cool! —Vashti Gough, Earthdawn Oculoiist We all found it here, and it is a miracle! —Matt Bowler Sphodrai Once you have played this game, you'll get addicted to it! —ReverendDuke, Elf Knights of Game 2 ehvam2 What the hell? It's good! —John A. Gray, Game On! Remamat What's the deal? I just started playing it for a little while, and I can tell it's really good

What's new:

To be forewarned is to be forearmed. Entering or leaving your room, or even the house for that matter, are just a few of the threats that the sleep deprived inhabitants of Crystal Lake are faced with every summer. HOLY [MUTANT] CROATERS! If your hero happens to have been a patron of the Casbah, chances are he's just slain an enormous cyborg or mutant crocodile or rattlesnake. Ripping through the screen is something of a common occurrence and, for a time, both Jason and his murderous half-brothers enjoyed rare notoriety. And what's a movie really without some bloody women lurking around? As for that couple's mutual friend, then there's hardly a movie without some malevolent panther or other. Anyway, we must take exception to those who view Jason as a shot in the foot. It is true, he possesses some rather unique characteristics, but having an unexciting protagonist who is painted as an "alien" or "monster" is rather limiting and boring. Allow us, then, to remind the reader of the essential nature of our hero. Jason's on the prowl; a criminal force whose most hated characteristics consist of vandalism, killing, and his own disgust with the people he has become accustomed to. He'll stop at nothing to get what he wants; regardless of cost or consequence...that is, unless he can't get what he wants; i.e., unless he can't get away with it. That is, unless the friendly neighborhood sheriff recognizes his face. CONGRATULATIONS, DEAR. ORDER A CONGRATULATIONS PARTY TO CELEBRATE THIS REALLY TIGHTLY WRAPPED BUNDLE OF COOL. Unfortunately, and it really is a shame, this is a product we can't really afford right now. Hopefully it'll be back in stock soon, for all our dedicated gamers to enjoy for themselves. Join us on Facebook for more details on when it does arrive again. Oh, that's right...you can't. Thanks for asking. YEAR IN SPACE, YEAR OUT OF TIME! This is a base building game. But also an exploration, a diplomacy, a society. Each of them is part of the project and the aim is to be as efficient as possible in this very unique environment. This game is really built for 2 to 5 gamers. A game session will be lasting 2 hours and there will be 4 of them. Curious gamers will find adventures, smart players will master the game mechanics. You decide! What is the Known Space universe? How did you came to the conclusion to change the Earth into Midgard? The Universe What if the Norse Mythology was build around true history? What if the Earth truly was Midgard? A world among others? And what if the norse mythology was so precise about the Ragnarok because it already happened? That's what a search team of scientifiques found in 2008 during an expedition in the north sea. And almost immediately a secret society named "the shadow council" took possession of all the artefacts found. A few years later you have been recruited to run a top secret project: The Bifrost Project.A Base Building game Your first objectif is to build and then manage a secret base. With a synergy system, you'll need to try and experiment to find the optimal pattern depending of your strategy. But the true challenge depend of the only condition of the council: to keep the base secret. Indeed, even if the council perfectly grasped the potential but you still need to prove it to them before they allow you to break the secrecy.An Exploration game The heart of the project is the main artefact found a few years ago: the Bifrost. In great secrecy they repaired it and, with it, it's the 8 other worlds of the north mythology which is opened to you to explore. But the Ragnarök took it's toll. Ruins, devastation, forgotten battlegrounds. It's up to you to discover what really happened. In this sens you have full liberty : will you send a small team, rapid and stealthy? Or will you send a strong team? able to protect itself but hard to conceal? And composed of scientist? who will probably found the most interesting artefacts but will also probably die if opposed? or soldiers? who will fend off aggressor but may miss artefacts?A diplomacy Game Despite the

ragnarok violence, those worlds are not void of life, civilisations survived, rose, fell or prospered. And those civil
