In this action role playing game that combines the history of role playing games with a fantasy action RPG, you take on the role of a human that has fallen in a “Lost Lands”, a transitional world between the ends of the world and the beginning of a new world that is full of endless quests and thousands of surprises. A MONOCHROME GAME. Incredible versions of classic graphical

images with “PNG” data compression. In addition to images, the game has many image data that can be viewed in a high resolution. SKELETON CLASSES THAT ARE IMPOSSIBLE TO CONCEIVE. An extremely detailed and expressive fantasy-like world in which “Class” is determined by your choice of weapon or equipment, and consists of a variety of “Class” from thief to warrior to magician. ENDLESS QUESTS. You can freely dive into quests in every direction, and even delve into different types of dungeons while taking on a variety of quests. AN ACTION FANTASY RPG FOR EVERYONE. Whether you’re playing with a group or by yourself, you’ll experience an action fantasy RPG that feels like a game. =====

Features Key:

Eclipse, a Legendary Ring the Earl of Light, which grants victory to the bearer. Players seek to become the bearer of this powerful crystal that enshrines the hidden truth of the world. Can you rise to power as an Elden Lord and return the world to glory?

An Epic Fantasy World A vast world in which seamless network play and a highly diverse map are linked together. A verdant world where a forest of dreams grows, full of trees and monsters. A bottomless river whose shores churn with the power of magma.

Action RPG Based on Fantasy An action-RPG game with rich graphics and one that fully keeps the action-RPG aspects. As you fight through a variety of enemies, you will be struck by riddles or succumb to the power of a great enemy.

Role-Playing Game with Real Emotions A role-playing game where every one makes their own fate and can freely change even in the midst of battle. Feel the anger of Tarnished Walker when he is unable to save the people and friends left behind. Feel the joy of seeing the world when you defeat a monster and save the people.

Independent Title A game developed on a budget of just 100 million yen. Based on the concept of the action RPG Fate series, with various genres applied, the main gameplay is linked to that of the action RPG genre. The game is working hard to be a completely new title with no relationship to any existing titles.

Wide Variety of Characters that Make You Feel Alive A huge cast of playable characters, from heroes to villains. In addition, the development team's aim was to avoid having a single concept for character development. Character development revolves around the emotions of each player. If your character is giving you a hard time, you can switch

him out with a different character.

The Adventure Continues Online By syncing with each other, you can interact with others in an online setting. Can you build friendships through the journey? Or is your character's quest for the Eclipse a source of tension?

Map Sharing Based on the concept of map sharing, you can use your saved maps online.

Thousands of Active Players Online The maximum online setting, ranging from single player to online group play, will let you touch the world

He was the son of Surveyor Ralph Harrison (died 1906), and the older brother of civil engineer Ralph Harrison. Career Harrison began his career working for J. Brown, mainly concerned with steam engines, and assisted in the patenting of the Brown-Cummings semi-hepatic engine in 1909. He spent most of his career at the W. L. Illman Company in Longton, Stoke-on-Trent. In 1927 he designed and built the steering gear for the HMS White Star, the world's first purpose-built aircraft carrier. He also contributed to the design of the Enterprise, which was used for the 1927 MacRobertson circumnavigation. He

was awarded the Telford Medal and Diploma in 1930 for the work on his patent of a compound steamship with screws both fore and aft to assist in propulsion, and a screw-driven rudder on the stern. In 1932, he submitted to the Board of Trade his detailed report of his experiment of the self-steering steamship, Christened the Crippen; the following year, a model of the ship, which was assembled from parts constructed at the Works, appeared in the first issue of The Model Shipbuilder, a publication of Trinity House. In the same year, 1933, he patented a self-elevating sea boat which attached to
